

Dr. Alexander Cerjan

CONTACT INFORMATION	Postdoctoral Scholar Department of Electrical Engineering Stanford University 450 Serra Mall Stanford, CA 94305 USA	<i>Mobile:</i> +1-925-683-6454 <i>E-mail:</i> acerjan@stanford.edu <i>Website:</i> www.alexcerjan.com
ACADEMIC POSITIONS	Postdoctoral Scholar Department of Electrical Engineering, Stanford University Adviser: Professor Shanhui Fan	August 2015 to present
	Postdoctoral Associate Department of Applied Physics, Yale University Adviser: Professor A. Douglas Stone	June 2015 to July 2015
EDUCATION	Yale University , New Haven, CT Ph.D., Physics, May 2015 Thesis Topic: <i>Fundamental Physics and Device Design using the Steady-state Ab initio Laser Theory</i> Adviser: Professor A. Douglas Stone Area of Study: Theoretical Optics and Photonics M.Phil., January, 2013 M.S., May, 2011 Brown University , Providence, RI B.S., Physics, Philosophy, May 2009 With Honors in Physics Undergraduate Thesis: <i>The Search for High Redshift Clusters</i> Adviser: Professor Ian Dell'Antonio Area of Study: Cosmology	
RESEARCH INTERESTS	<ul style="list-style-type: none">◇ Photonic Crystals◇ Laser Theory◇ Non-uniform gain and loss◇ Quasicrystals and Hyperuniform structures◇ Chaotic Cavities	
JOURNAL PUBLICATIONS	[18] A. Cerjan and S. Fan, "Effects of non-uniform distributions of gain and loss in photonic crystals," <i>New J. Phys.</i> 18 , 125007 (2016). – <i>Invited Comment to the Focus issue on Parity-Time Symmetry in Optics and Photonics</i> [17] A. Cerjan, B. Redding, L. Ge, S. F. Liew, H. Cao, A. D. AWARDS

- ◇ Prize Teaching Fellowship Award, Yale University, 2014
- ◇ Prize Teaching Fellowship Award, Yale University, 2012
- ◇ Karen T. Romer Undergraduate Teaching and Research Award, Brown University, 2008
- ◇ Eagle Scout Award, 2004

GRANTS

- ◇ “The Search for High Redshift Clusters,” Rhode Island Space Grant, \$3000, June 1, 2007 to August 31, 2007.

- INVITED TALKS
- [3] A. Cerjan, “Photonic systems with patterned gain and loss,” In: *Northrop Grumman Next Workshop on the Physics of Light Matter Interactions and Excited State Dynamics*, October 25–27, 2016.
 - [2] A. Cerjan, “Exceptional contours and eigenvalue dynamics in systems with non-uniform gain and loss,” At: *Yale University, Applied Physics, Special SSO Seminar*, August 24, 2016.
 - [1] A. Cerjan, A. Pick, A. W. Rodriguez, Y. D. Chong, S. G. Johnson, and A. D. Stone, “Quantitative test of general theories of the intrinsic laser linewidth.” In: *Texas A&M Physics of Quantum Electronics Follow-on Workshop*, January 12–14, 2015.

- CONFERENCE TALKS
- [5] A. Cerjan, A. Raman, and S. Fan, “Exceptional Contours and Band Structure Design in Parity-Time Symmetric Photonic Crystals,” In: *Frontiers in Optics 2016*, October 17–21, (2016).
 - [4] A. Cerjan, A. Pick, Y. D. Chong, S. G. Johnson, and A. D. Stone, “Quantitative test of general theories of the intrinsic laser linewidth,” In: *CLEO 2015*, May 10 – May 15, 2015.
 - [3] A. Cerjan, B. Redding, H. Cao, and A. D. Stone, “Device design using the steady-state *ab initio* laser theory,” In: *CLEO 2015*, May 10 – May 15, 2015.
 - [2] A. Cerjan, and A. D. Stone, “Ab Initio Theory of Injection Locking of Lasers,” In: *CLEO 2013*, June 9 – June 14, 2013.
 - [1] A. Cerjan, Y. D. Chong, L. Ge, and A. D. Stone, “Steady-state Ab initio Laser Theory: Generalizations,” In: *2012 APS March Meeting*, February 27 – March 2, 2012.

- CONFERENCE POSTERS
- [2] A. Cerjan, A. Pick, A. W. Rodriguez, Y. D. Chong, S. G. Johnson, and A. D. Stone, “Quantitative test of general theories of the intrinsic laser linewidth.” In: *Physics of Quantum Electronics 2015*, January 4–8, 2015.
 - [1] A. Cerjan, Y. D. Chong, and A. D. Stone, “Steady-state ab initio laser theory for complex gain media.” In: *Physics of Quantum Electronics 2014*, January 5–9, 2014.

STUDENT ADVISING

Jason Frost
Undergraduate student in Applied Physics, Stanford University. Supervised his project on exploring the optical properties of meta-materials comprised of eutectic materials with a phonon-polariton response, such as AgCl and KCl. 2016.

Kevin Lai
Undergraduate student in Physics, Yale University. Supervised his project on developing an implementation of SALT using the PETSc and SLEPc libraries. 2012–2013.

TEACHING EXPERIENCE

Yale University, New Haven, CT

Invited Guest Lecturer

Exploring the Nature of Genius
Invited by professor Craig Wright to discuss the concept of genius as it applies to the scientific and mathematical disciplines. February 3rd, 2015.

Non-linear Optics and Lasers
Invited by professor Hui Cao to give an introduction to the steady-state ab initio laser theory. April 21st, 2015.

Teaching Fellow

September 2009 to May 2015

Ordinary and Partial Differential Equations with Applications

- Spring 2015
- Entry-level undergraduate course
- Responsible for weekly homework sessions, holding office hours, and producing homework solutions.
- Created homework and exam questions.

Thermodynamics and Statistical Mechanics

- Fall 2011, Fall 2012, Fall 2013, Fall 2014
- Upper-level undergraduate course
- Responsible for weekly homework sessions, holding office hours, producing homework solutions, and grading problem sets.
- Created homework and exam questions.

Electromagnetic Fields and Optics

- Spring 2014
- Upper-level undergraduate course
- Responsible for holding office hours, producing homework solutions, and grading problem sets.

Solid State Physics II

- Spring 2013
- Graduate level course
- Responsible for weekly homework sessions, holding office hours, producing homework solutions, and grading problem sets.

General Physics Laboratory

- Fall 2009, Spring 2010, Spring 2012
- Entry-level undergraduate level laboratory
- Responsible for running a weekly section of 12-16 students for 3 hours, including a short lecture at the beginning, and grading the lab reports.

Electromagnetic Theory I

- Spring 2011
- Graduate level course
- Responsible for holding office hours, producing homework solutions, and grading problem sets.

Classical Mechanics (Intensive)

- Fall 2010
- Upper-level undergraduate course
- Responsible for weekly homework sessions, holding office hours, producing homework solutions, and grading problem sets.

(Student evaluations and other materials available upon request, or on my website.)

PROFESSIONAL SERVICE

Referee Service

Science
Nanophotonics
Applied Physics Letters
Scientific Reports

Optics Express
Biomedical Optics Express
Applied Optics

ACADEMIC
SERVICE

Graduate Student Seminar at Yale University

Organizer, Fall 2011 through Spring 2013.

Davenport College Affiliate

Organize and run events, such as making Liquid Nitrogen ice cream, for members of Davenport College, Fall 2010 to Spring 2015.

Co-coordinator

Facilitated the operation of the Graduate Affiliate program at Davenport, Fall 2011 to Spring 2014.

Mellon Forum Steering Committee Member

Helped seniors in Davenport college prepare and rehearse for Mellon Forum presentations. Fall 2013 to Spring 2015.

PROFESSIONAL
MEMBERSHIPS

American Physical Society, 2011–present

Optical Society of America, 2015–present
